About rental market data file – Strong support for more precise leasing strategy planning –

From data that broadly overlooks the real estate market such as "population trends", "economic trends", and "construction starts", to data focused on target properties such as "rent trends in the neighborhood of properties" and "operating trends of competing properties", the "Rental Market Data File" provides real estate-related data in a format that is easier to see and understand.

In particular, through our own media "Easy Sheet Listing" (visit to a total of 930,000 companies from May 2007 * as of March 31, 2022), we will strengthen the accuracy of information by collecting and using live information (real recruitment information, deal information) from intermediaries, and strongly support the planning and review of more precise leasing strategies and tactics than ever before in the "Rental Market Data File".

☆ Price: 1 area: from 30,000 yen (excluding tax)

☆ Delivery time: About 10 days / For example, we will deliver the data as of the end of the month around the 10th of the following month.

【LMC Business Overview】
